4. train them on the on-line education (to use video conferencing applications like Skype, as well as other programs that will allow them to share media and information with students on the internet); and
5. develop digital learning materials which complement multi-sensory learning environments.

The participants to this training are the administrators, elementary and secondary teachers from both public and private schools. The names of teachers who will attend must be submitted by their school principals. They can bring their own laptops.

A registration fee of Eight Hundred Pesos (PhP800.00) will be charged each from public school participants and One Thousand Two Hundred Pesos (PhP1,200.00) each from private school participants to cover the cost of venue, training modules, and certificates.
