# **K to 12 Basic Education Curriculum for the Alternative Learning System (ALS-K to 12)**

## **Learning Strand 1**

COMMUNICATION SKILLS (ENGLISH)

2017

## K TO 12 BASIC EDUCATION CURRICULUM FOR THE ALTERNATIVE LEARNING SYSTEM (ALS-K TO 12)

### LEARNING STRAND 1: COMMUNICATION SKILLS *ENGLISH*

The main thrust of Learning Strand (LS) 1 is Communication Skills, which seeks to develop the ability of out-of-school youth and adults to access, critically process, and effectively use available information in a variety of media so as to:

- function effectively as a member of the family, community, nation, and the world; and
- participate actively in community and economic development.

Learning Strand 1 involves the five macro skills namely, **listening** purposively and critically; **speaking** clearly and appropriately; **reading** to process and critically use information from a wide range of written materials and other forms of media, expressing one's ideas and feelings clearly and effectively in **writing**, and **viewing** to demonstrate critical understanding and interpretation of visual media.

This provides the framework of Learning Strand 1, which is schematically presented below.

## K TO 12 BASIC EDUCATION CURRICULUM FOR THE ALTERNATIVE LEARNING SYSTEM (ALS-K TO 12)

The content and performance standards, and competencies and skills in this Learning Strand are sequenced from the simplest to the most complex. This is intended to provide the learners opportunities to experience success in developing their ability to access, critically process, and effectively make use of available information in a variety of media and express their ideas and feelings clearly and effectively in both oral and written forms. The gradual increase in scope and difficulty will help the learners develop self-confidence in using their communication skills at every level.

When a certain competency is spiraled or assigned to more than one level in any of the five macro skills of English language learning, progression in difficulty may be achieved through the choice of learning materials for developing it. Considerations will be in terms of:

- type of material
- length of the material
- choice of words and language structure
- concept load

The Basic Literacy Level (BL) competencies is a separate section in the Enhanced ALS Curriculum focused only on Basic Level competencies on Communication Skills (listening, speaking, viewing, reading, and writing) and numeracy.

This section for Basic Literacy competencies is not a stand-alone, since specific concepts/topics from other Learning Strands will be used as contents for the development of Basic Literacy skills.

Note how this is illustrated in the example below:

Performance Standard A, which focuses on the listening component of language learning, under Learning Competencies 6:

<b>Elementary Level (Lower)</b>	:	Show an understanding of most conversations in the language being acquired (understanding conversations containing some familiar and unfamiliar vocabulary).
<b>Elementary Level (Advanced)</b>	:	Show an understanding of most conversations in the language being acquired (understanding conversations to recount details).
<b>Junior High School</b>	:	Show an understanding of most conversations in the language being acquired (understanding most conversations containing unfamiliar vocabulary but not necessarily all the details).
<b>Senior High School</b>	:	Show an understanding of most conversations in the language being acquired (understanding conversations to recount accurately specific details).

In this example, the learner is expected to show an understanding of conversations of gradually increasing difficulty. He/she starts with understanding conversations with phrases containing familiar vocabulary, progresses to understanding conversations containing some familiar and unfamiliar vocabulary, and later to a more complex understanding of most conversations containing unfamiliar vocabulary and accurately specific details in the language

## K TO 12 BASIC EDUCATION CURRICULUM FOR THE ALTERNATIVE LEARNING SYSTEM (ALS-K TO 12)

being acquired.

Progression in difficulty is also demonstrated below in Performance Standard B, which focuses on the speaking component of language learning, under Learning Competency 2.

- |                                    |   |   |
|------------------------------------|---|---|
| <b>Elementary Level (Lower)</b>    | : | Ask questions and correctly answer questions using W-H markers in responding to current issues and everyday inquiries.  |
| <b>Elementary Level (Advanced)</b> | : | Ask questions and correctly answer questions related to current issues presented in the classroom and community assemblies.   |
| <b>Junior High School</b>          | : | Ask questions and correctly answer questions related to current issues presented in TV and radio programs encouraging audience participation.   |
| <b>Senior High School</b>          | : | Ask questions and correctly answer questions related to current issues presented in TV and radio programs, the internet, newspapers, magazines, books, billboard, video games, music, and all other forms of media. |

In this example, the degree of difficulty in the skill of questioning increases as the complexity and range of information to be gathered or inquired about increases.

For Performance Standard C, which focuses on Reading, under Learning Competencies 12, 13, 14, and 16, the shift from easy to difficult is shown in the following examples:

- |                                    |   |  |
|------------------------------------|---|--|
| <b>Elementary Level (Lower)</b>    | : | Interpret simple written sentences, e.g., sentences whose contents are related to: <ul style="list-style-type: none"><li>• immediate needs</li><li>• specific activities in the community or workplace</li></ul>   |
| <b>Elementary Level (Advanced)</b> | : | Interpret complexly written sentences, e.g., sentences whose contents are related to: <ul style="list-style-type: none"><li>• immediate needs</li><li>• specific activities in the community or workplace</li><li>• current goals</li><li>• urgent matters</li></ul> |
| <b>Junior High School</b>          | : | Interpret the parts of important documents and forms when necessary, e.g., bio-data, application form, tax-related documents, etc.   |
| <b>Senior High School</b>          | : | Interpret themes and messages that are not clearly and explicitly stated in the passage, text or selection.  |

In this particular example, the sequencing is achieved by gradually increasing the difficulty of the material or concept load from one level to another, specifically from simple common written messages, signs, symbols, words, and phrases to simple written sentences, to the interpretation of the parts of important documents and forms, and finally to the interpretation of messages that are subtly expressed in passages, texts, or selections.

## K TO 12 BASIC EDUCATION CURRICULUM FOR THE ALTERNATIVE LEARNING SYSTEM (ALS-K TO 12)

For Performance Objective D, which concentrates on Writing, under Learning Competencies 11, 25, 26, and 27, examples are as follows:

- Elementary Level (Lower)** : Write simple, compound, and complex sentences on different activities, issues or occasions.
- Elementary Level (Advanced)** : Write simple paragraphs on different activities, issues, or occasions.
- Junior High School** : Write well-organized, coherent, and grammatically correct paragraphs that talk about oneself, country, and the world.
- Senior High School** : Write a composition with correctly sequenced paragraphs using appropriate paragraph/sentence structure and correct grammar, punctuation, capitalization, and spelling to talk about oneself, country, and the world.

In this example, complexity in skills increases from writing simple sentences simply to introduce oneself, to writing simple, compound, and complex sentences, to writing descriptive, narrative, expository, and persuasive paragraphs. This movement from easy to more difficult learning tasks will help the learner to experience success in developing communication skills.

For Performance Standard E, which concentrates on Viewing, examples are as follows:

- Elementary Level (Lower)** : Make connections between information viewed and personal experiences. (Competency #8)
- Elementary Level (Advanced)** : Determine images/ideas that are explicitly used to influence viewers (stereotypes) and interpret properly simple common written messages, signs, symbols, words, and phrases related to immediate needs or which are commonly used at work or which are found in the community. (Competency # 19)
- Junior High School** : Deduce the purpose and value of visual media to immediate needs or work. (Competency # 24)
- Senior High School** : Demonstrate a critical understanding and interpretation of visual media such as movie clips, trailer, news flash, internet-based program, videos, documentaries, etc. (Competency # 24)

In this example, viewing skill supports literacy in language and serves as gateway to exploring complex ideas and open learner's eyes to other ways of looking at the world. Through it, multimedia resources can be used appropriately, efficiently, and effectively.

There are objectives, competencies, and skills that are gradually being developed throughout the whole teaching-learning process in the three levels—basic, elementary, and secondary—in the Alternative Learning System (ALS).

## K TO 12 BASIC EDUCATION CURRICULUM FOR THE ALTERNATIVE LEARNING SYSTEM (ALS-K TO 12)

Increase in difficulty in terms of the medium or stimulus, for instance, initial listening activity could be an informal face-to-face conversation, which would then progress to simple announcements and later to radio and television interviews/programs, will provide opportunities for the learners to widen the experience that would redound to the gradual development and attainment of the objectives, competencies, and skills as they progress through the three learning levels.

For that strategy to work, however, the curriculum users should consider the age level, experience, cultural context, and social milieu of the target learners. This is crucial to the process of developing or selecting learning materials, or perhaps planning activities for the conduct of regular or special learning group sessions and other such pursuits that would help attain the objectives as naturally as possible. Take, for instance, Performance Standard A, 5, of Learning Strand 1, which is illustrated below.

- Elementary Level (Lower)** : Listen in order to recount accurately specific details of informative oral messages in **conversations**.
- Elementary Level (Advanced)** : Listen in order to recount some specific details of informative oral messages in **formal and informal discussions**.
- Junior High School** : Listen in order to recount accurately specific details of informative oral messages in **religious leaders' sermons/homilies/preachings**.
- Senior High School** : Listen in order to recount accurately specific details of informative oral messages in **radio/TV programs/speeches/advertisements**.

At the basic level, a stimulus such as a simple informal conversation, which usually takes place at home between and among family members, may require not much concentration. It then progresses to a newscast—a more sophisticated medium, which requires greater concentration and focus at the elementary level. Finally, at the secondary level, the learners are taken to a larger environmental context, which increases their responsibility to fully concentrate and make use of more senses, and challenges their ability to critically analyze what has been seen, heard and observed, and viewed.

### SENIOR HIGH SCHOOL

To complete SHS and meet the competencies for the middle skills development, entrepreneurship, and employment exits of the basic education curriculum, ALS learners must complete the competencies that are specified in English for Academic and Professional Purposes and Practical Research 1 and 2 (which are applied subjects). The topic of Practical Research 1 and 2 may be lifted from the other ALS learning strands. They should also complete the specialization subjects of any of the following Senior High School tracks: Sports, Arts and Design or Technical-Vocational-Livelihood.

College-bound ALS learners in SHS must also complete the core subjects Oral Communication, Reading and Writing and 21st Century Literature from the Philippines and the World (or their equivalents). They must also complete all the specialization subjects in any of the Academic Strands (Accountancy, Business and Management [ABM], Humanities and Social Sciences [HUMSS], Science, Technology, Engineering and Mathematics [STEM], or General Academic).

If an ALS learner who has completed the K to 12 curriculum wishes to proceed to higher education, this learner may return to the ALS program and take the core curriculum at any time.

## K TO 12 BASIC EDUCATION CURRICULUM FOR THE ALTERNATIVE LEARNING SYSTEM (ALS-K TO 12)

### Learning Strand 1: Communication Skills

#### BASIC LITERACY LEVEL

#### ***Content Standard: Listening***

**Performance Standard A:** Listen attentively and critically in at least two languages to be able to function effectively as a member of the family, the community, the nation and the world and to participate in community and economic development.

Learning Competencies	Code	
	K to 12	ALS
1. Show understanding of simple phrases, spoken slowly with frequent repetitions in the language to be acquired in day-to-day listening occasions: <ul style="list-style-type: none"> <li>● Conversations</li> <li>● Telephone calls</li> <li>● Religious leaders' sermons/homilies/preaching</li> <li>● Formal and informal discussions of people on the streets, market place, etc.</li> <li>● Radio and television programs</li> <li>● Radio and television ads</li> <li>● Radio and television interviews</li> </ul>	LLKOL-00-10 MT1OL-Ie-i-5.1 EN1G-IIa-e-3.4 EN2G-IIIh-3.4 MT2OL-IIId-e-6.3 MT2OL-IIIb-c-6.3 MT2OL-Ii-i-9.1.1 EN3OL-Ib-3.6 EN3OL-Ia-3.8 MT3OL-IIIb-c-6.3 MT3OL-Ii-9.1.1	LS1CS/EN-L-PSA-BL-1
2. Show understanding of phrases containing familiar vocabulary in different contexts in the language being acquired.		LS1CS/EN-L-PSA-BL-2
3. Show understanding of conversations containing some familiar and unfamiliar vocabulary in the language being acquired.		LS1CS/EN-L-PSA-BL-3
4. Show understanding of most conversations in the language being acquired (not necessarily all the details if the subject is unfamiliar).		LS1CS/EN-L-PSA-BL-4
5. Listen in order to recount accurately specific details of informative oral messages: <ul style="list-style-type: none"> <li>● Conversations</li> <li>● Formal and informal discussions</li> </ul>		LS1CS/EN-L-PSA-BL-5
