ICT-ENABLED EDUCATION

A photograph showing three young children sitting at a table, each focused on a tablet computer. The child on the left is a girl with dark hair in a ponytail, wearing a blue sleeveless top. The child in the middle is a boy with dark hair, wearing a white shirt. The child on the right is partially visible, wearing a light blue shirt with an orange collar. The tablets are white and placed on a light-colored, textured tablecloth. The background is slightly blurred, suggesting an indoor setting like a classroom or library.

It's not just the gadgets

It's also what's
IN the gadgets

It's not just the **technology**,

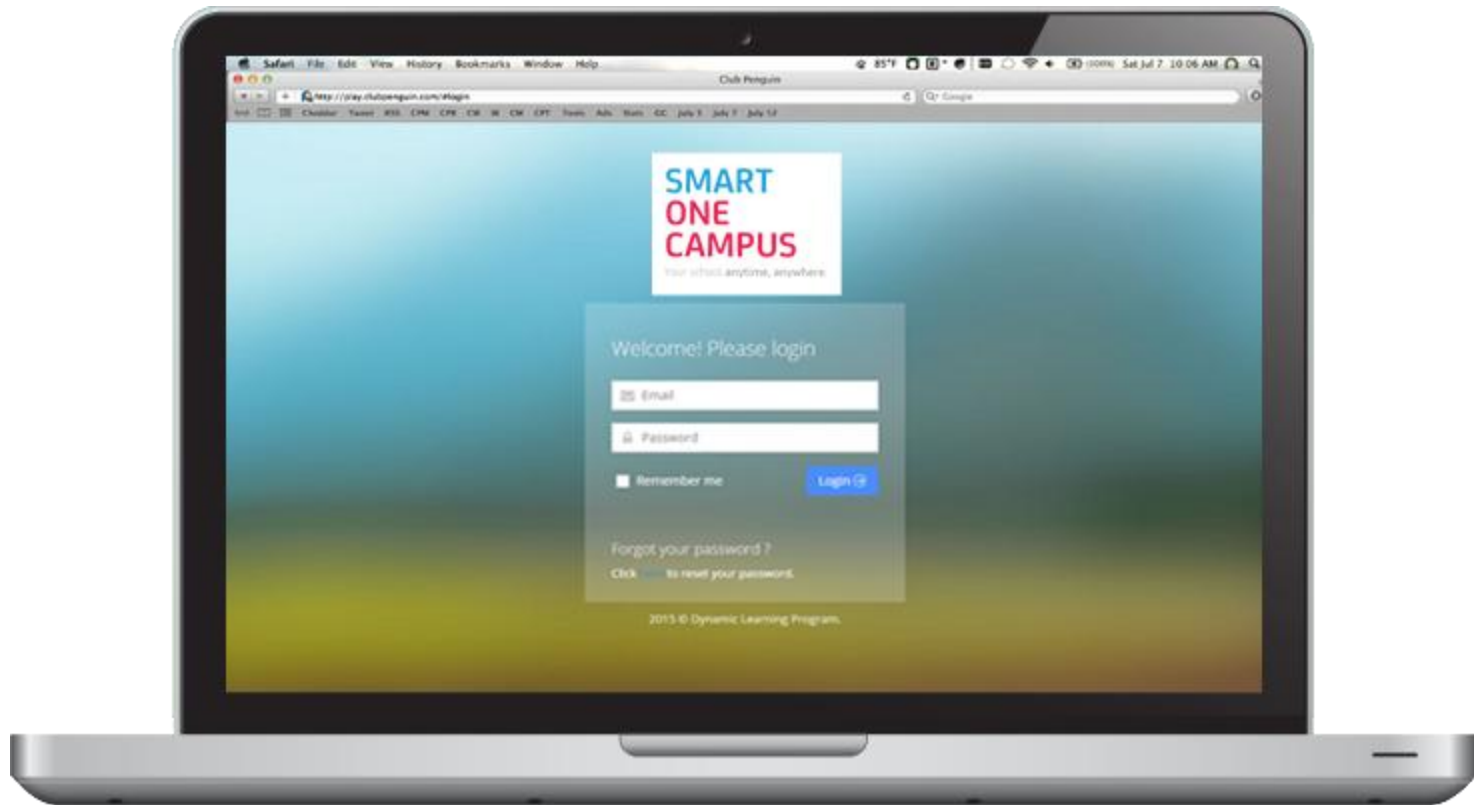

It's also the pedagogy,

It's just not for learning by students,

but also for teaching by teachers.

Smart Learning Management System

Thank You.
