DepED ORDER
No. 33, s. 2004

MAY 31 2004

**IMPLEMENTING GUIDELINES ON THE PERFORMANCE-BASED
GRADING SYSTEM FOR SY 2004 - 2005**

TO: Undersecretaries
Assistant Secretary
Bureau Directors
Directors of Services/Centers and Heads of Units
Regional Directors
Schools Division/City Superintendents
Heads, Public Elementary and Secondary Schools

1. In line with the thrust of this Department to continuously improve the quality of learning outcomes, the lowest passing grade or the minimum performance standard for students in public elementary and secondary schools is set at 75 percent for SY 2004-2005 and school years thereafter. The lowest failing grade that may appear in the report card is set at 65 percent.
2. The same standard shall apply to students in the Bridge Program.
3. In assessing learning outcomes, the construction of the test design should consist of 60% basic items, 30% more advanced items and 10% items for distinguishing honor students. Questions in each category should have different weights. Test and non-test items should cover only materials actually taken up in class.
4. Grading system by subject shall follow the guidelines in Enclosure 1 (in the case of the elementary level) and the percentage weights allocated to the test non-test factors indicated in Enclosure 2. Rubrics, where appropriate, are provided to assess performance in each of the following components: participation/performance, projects/outputs, assignments, among others.

5. Transmutation tables shall not be used in the computation of grades. Test scores shall be recorded as raw scores, totaled at the end of each grading period and then computed as percentage (i.e., [students' score ÷ highest possible score] x 100).

6. The final grade shall be determined by averaging the marks for the four quarters. In the case of the secondary level, averaging across quarters shall be by subject only.

7. Promotion at the secondary level shall be by subject. A student shall be retained in the year level if he/she incurs failures of three units or more during the regular school year and is unable to make up for the failed subjects during the summer sessions. Retained students need to repeat only those subjects that they failed.

8. Previous issuances that are inconsistent with this Order are amended accordingly.

9. Immediate and wide dissemination of this Order is expected.

Distribution of Weights:

Periodical Test is given a weight of 25%.

Other measures of achievement shown in the table below have a total weight of 75%.

	Engl. & Fil.	Science & Health	Math.	Makabayan	* MAKABAYAN IV - VI

These * subject areas are graded in the card as one subject area from Grades IV-VI. However, each subject needs individual rating.

Rating for Mathematics

To obtain the rating for the learning area in a grading period, get the average of all the ratings entered in the Class Record under each measure of achievement multiply the result with the corresponding weight as in Item 1.

PUPIL	QUIZZES			AVE.	15%	CLASS INTERACTION / PARTICIPATION			AVE.	25%	HOMEWORK ASSIGNMENT			5%	PROJECTS			AVE.	15%	Other Acts	15%	PERIODIC TEST		FINAL RATING				
1	85	90	88	90	89	13.35	85	85	80	90	90	86	21.50	90	90	90	90	4.50	85	90	95	90	13.50	90	13.50	92	23.00	89.35
2	75	80	82	80	80	12.00	75	80	85	85	85	82	20.50	85	85	80	83	4.15	80	85	80	82	12.30	86	12.90	87	21.75	83.60
3	65	75	78	75	75	11.25	65	75	80	80	80	76	19.00	80	85	80	82	4.10	75	80	80	78	11.70	80	12.00	80	20.00	78.05

To compute the rating of Pupil to the given example:

	Weight	Average x	Weight	Weighted Average
Quizzes	15%	89	x	13.35
Class Interaction	25%	86	x	21.50
Homework	5%	90	x	4.50
Projects	15%	90	x	13.50
Math Activities	15%	90	x	13.50
Periodical Test	25%	92	x	23.00
	100%			89.39

For Makabayan, the following guidelines shall be applied:

- There shall be one (1) grade for Makabayan.
- Follow the computation for each learning area component as provided in the proposed rating system. Then compute the rating of HKS, EPP and MSEP. To get the rating for Makabayan in each of the grading period, add the ratings of HKS, EPP and MSEP and divide by 3

Example: Rating for 1st Grading Period

Heograpiya, Kasaysayan at Sibika (HKS)	85
Edukasyong Pantahanan at Pangkabuhayan (EPP)	82
Musika, Sining at Edukasyon sa Pagpapalakas ng katawan (MSEP)	<u>81</u>
	248/3= 82.66

Thus, the grade for Makabayan for the first quarter is 82.66 or 83.

- To get the average of five learning areas, add the rating of each learning area and divide by 5.
- To get the General Average, add all the grades of the 4 core subjects plus Makabayan divided by 5.

Example:

Subjects	Final Rating
English	88
Filipino	85
Mathematics	84
Science	86
Makabayan	85
General Average	85.60

All entries in the Form 138 (Report Card) should also appear in the Form 18-E and Form 137, except for the final rating which is rounded to the nearest whole number in Form 18-E

MARKING FOR CHARACTER TRAITS

Specific indicators shall be used in observing pupils behavior. The class adviser and other teachers handling the class shall give the rating for behavior observations.

Example for Pupil A:

Traits	Teacher 1	Teacher 2	Teacher 3	Teacher 4	AVERAGE
1. Honesty	85	85	80	90	85
2. Courtesy	80	80	85	85	83
3. Helpfulness and Cooperation	90	90	85	85	88

The average numerical rating for each trait shown will be converted to letter grade -- e.g. 85 for Honesty is equivalent to C for purposes of filling up the portion on traits in the Report Card.

Non-Numerical Rating

A - Outstanding	95 - 100
B - Very Good	89 - 94

* Ang moral dilemma ay isang sitwasyon na nagpapahayag ng dalawang magkasalungat na posisyon na kinapapaloban ng dalawang magkaiba o nagtutunggaling pagpapahalaga. Sa pananaw ng iba, ito ay terna habang sa iba naman ito ay mali. Sa moral dilemma nagkakaroon ng pagkakataon ang mag-aaral na pumili ng posisyon ukol sa isang isyung moral na kanilang paninindigan. Ipaliwanag niya ang maaring kalabasan ng posisyong pinili. Sa huli, mauunawaan ng mag-aaral na ang pagpili ng posisyon ay mayroong batayan upang masabing ito ay moral o tama. Ang husay sa paninindigan ng mag-aaral sa pagbibigay ng kanyang mga posisyon o argumento ay batay din sa antas ng kanyang moral na pagpapahalaga at kaalaman sa mga palatandaan ng moral na kilos.
