PROCUREMENT AND DELIVERY OF THE TECHNICAL VOCATIONAL and LIVELIHOOD (TVL) TOOLS AND EQUIPMENT

To : Schools Division Superintendents

1. In accordance with the procurement process and guidelines set by the National Office as stipulated in DepEd No. 8, s. 2016, DepEd Region V managed the procurement and delivery of the tools and equipment for the identified specialized Technical-Vocational-Livelihood (TVL) courses under the Senior High School Program for School Year 2016-2017.
2. The list of schools identified to receive the TVL tools and equipment was based on the masterlist of Senior High School offerings in Region V provided by DepEd Central Office, derived from the submitted early implementation plans of the divisions. Said list was subsequently revised and updated with official requests from the schools and Division Offices, with some schools opting not to offer some TVL specializations earlier declared due to lack of enrollees. Other schools, on the other hand, are now offering TVL specializations despite their non-inclusion in the list. Thus, suppliers encountered problems in the delivery of goods to the schools because of the said revision.
3. In order to address the minor problems on the delivery of TVL tools and equipment to schools not needing such due to the revision of track offerings, this Office is authorizing the Schools Division Superintendents/ Assistant Schools Division Superintendents through their Supply Officers to accept from the identified winning bidders/suppliers the tools and equipment which were not received by the schools in their divisions because they will not need those in their current offerings. These should be delivered to schools offering the TVL specializations or those with TVL electives under the General Academic Strand (GAS) of the Academic Track. It has to be stressed though, that priority are the schools offering the Technical-Vocational-Livelihood (TVL) Track.
4. The Schools Division Offices are also authorized to transfer the TVL tools and equipment from one school to another school in case a Senior High School received goods from the Supplier but they will not need those in their present offerings. These should be delivered to schools offering the TVL specializations or those with TVL electives under the General Academic Strand (GAS) of the Academic Track, giving priority again to schools offering the Technical-Vocational-Livelihood (TVL) Track.
5. The rules in receiving the tools and equipment should be strictly observed by concerned divisions. An inventory report should be prepared by the Supply Officers following the enclosed format to be submitted to the Curriculum and Learning Management Division through the Regional Senior High School Coordinator, Ma. Leilani R. Lorico on or before April 21, 2017.
6. Enclosed are the following for reference and guidance:
 - Enclosure No. 1 - Status of Procurement and Delivery of SHS TVL Tools and Equipment
 - Enclosure No. 2 - Guidelines on the Utilization of TVL Tools and Equipment
 - Enclosure No. 3 - Templates of the Inventory Reports on received or transferred TVL Tools and Equipment
 - Enclosure No. 4 - List of Schools identified to receive the TVL Tools and Equipment & other schools offering the specializations not identified by the RO

7. TVL specializations not included in the list of procured list tools and equipment and item without a bidder shall be prioritized by the Region for CY 2017. But it should be noted that division offices and SHS schools should explore other modes of acquiring other necessary tools and equipment as may be allowed by law. These include, among others, partnering with local government units, private institutions and other stakeholders.

8. For information, dissemination and compliance.

GUIDELINES IN THE UTILIZATION OF TVL TOOLS AND EQUIPMENT

1. Use of the TVL tools and equipment for TVL track should be made functional in every Senior High School. They can also be utilized by the students with TVL elective subjects under the General Academic Strand (GAS) and students in Junior High School in their TLE subjects if not needed by concerned students.
2. TVL tools and equipment should be properly stored and kept intact in one place. Storage room should be safe/hazard free, properly ventilated and accessible to the students.
3. The schools should assign teacher/focal persons in charge of TVL tools and equipment. A school principal may assign focal person by TVL strand (a. Agri-Fishery Arts, b. Home Economics, c. Industrial Arts and d. Information, Communications and Technology (ICT) if the school is offering several TVL specializations of the four strands.
4. The schools' focal persons for the TVL tools and equipment should ensure proper safekeeping of the items by specialization. Proper inventory should also be done at the end of every semester.
5. Feedback on the use and status of the TVL tools and equipment should be communicated to the school principals. Inventory reports should likewise be submitted to respective school heads.
