By way of introduction, Republic Act No. 9369 requires that the results of any automated elections must undergo random manual audit to check the accuracy of the voting machine used. For this end, the Random Manual Audit ("RMA") Committee was formed and has since worked to ensure the results of the Elections are not only precise but as well as trustworthy.

The RMA Committee cannot however audit each and every precinct required by law. The Committee is proud that esteemed civil servants, such as teachers and school administrators, had taken up its cause. It is in this regard that the Committee would seek your help.

The Committee has little by way of financial resources but it is willing to give all it has for the benefit of those who sacrificed time and shared talent to audit Election Results and constantly endeavors that the efforts of these volunteers are aptly rewarded. It is for this reason that the RMA Committee humbly requests that your good office grant these self-less volunteers service incentive leave credits of at least five (5) days, a gesture all can accept is commensurate to their labors.

The Committee is submitting to your good office the List of Teachers and School Administrators, who served as Random Manual Audit Team members this 13 May 2013 Automated Synchronized National, Local and ARMM Elections and their Stations.

We pray that your kind soul might find merit in our request.

Very truly yours
