#### STI MOBILE SCHOOL PROGRAM OF THE STI EDUCATION SERVICES GROUP INC.

STI Education Services Group Inc. forged a Memorandum of Agreement with the Department of Education (DepEd) for their program called *STI Mobile School*.

The overall objective of the program is to equip learners with ICT skills aligned with outcome-based education that will be relevant to their chosen field in higher education.

The STI Mobile School is a Computer Laboratory on Wheels. This is a complete computer laboratory contained within a motor bus.

Together with an STI teacher, public high school students will be able to gain skills in photo editing and layouting, 3D animation, web design, and mobile application applicable in their real-life activities.

To meet the requirement, a DepEd high school shall have the necessary power supply or a working set of generators to which the STI Mobile School shall tap into in order to allow the unit to function properly. A safe parking space is likewise preferred.

The computer training in the bus may be supplemented by training in STI schools for *free* upon the agreement and arrangement between the local STI Campus head and the DepEd high school principal.

The Training Program also equips the public school teachers with ICT literacy to be shared with their students. After the training, Certificates of Participation will be provided upon request by the participating DepEd high schools.

More information may be inquired from the nearest *STI Campus*, through the *Career Adviser*, or any of the following:
