NATIONAL SCIENCE AND TECHNOLOGY WEEK

The Department of Science and Technology (DOST) will celebrate the National Science and Technology Week (NSTW) with the theme Science for the People: Innovation for Collective Prosperity from July 17 to 21, 2018 at the Halls A-C, World Trade Center, Pasay City. This is pursuant to Presidential Proclamation No. 169 s. 2013 entitled Declaring the Third Week of July as National Science and Technology Week.

The annual NSTW aims to showcase the DOST-developed world-class technologies, and the program and services offered by the Department. It also seeks to gather industry experts, representatives from the government, agriculture, communication and education sectors, and other stakeholders.

All public and private elementary and secondary schools nationwide are invited to conduct Science fairs exhibiting results of exploratory/investigative Science projects and inventions, Science/Math quizzes, Science boot camps and other Science, Technology, Engineering and Mathematics (STEM) activities, among other activities that would inspire students to pursue careers in Science and Technology.
