### **VLIR-UOS SCHOLARSHIPS FOR MASTER OR TRAINING PROGRAMMES**

The Vlaamse Interuniversitaire Raad-University Development Corporation (VLIR-UOS) is offering **Scholarships for Master or Training Programmes** in Flanders, Belgium for SY 2011-2012.

The master programmes, lasting one or two academic years, focus on specific problems of developing countries. These are designed to enable graduates to share and apply acquired knowledge in the home institution and country.

In the shorter training programmes, lasting one to four months, the focus is on transferring skills rather than knowledge, thus creating opportunities for cooperation and networking.

All programmes are specifically designed for people in positions of responsibility in civil society (e.g. universities, schools, non-government organizations (NGOs), local communities, government).

The target group for master programmes is comprised of students from developing countries. Training programmes are tailored to people from developing countries with a certain degree of professional experience.

These scholarships cover all related expenses.
