DECS ORDER
No. 37, s. 1998

**THE ESTABLISHMENT OF PILOT PROVINCIAL SCIENCE
AND TECHNOLOGY HIGH SCHOOLS**

**To: Bureau Directors
Regional Directors
Schools Superintendents
Regional Science High School Principals
Divisional Leader School Principals (Secondary)
Vocational High School Principals**

1. The Department of Education, Culture and Sports through the Bureau of Secondary Education, in its goal to produce globally competitive, self-reliant and productive citizens who can contribute to the socio-economic well-being of the community shall establish on a pilot basis in each representative region a special school which shall be called the Provincial Science and Technology High School.
2. These secondary schools are envisioned to cater to the technological demands of the community. They shall primarily focus on the application of laws and principles of science to prepare students to successfully meet the challenges of a technology-laden world of work.
3. The Provincial Science and Technology High Schools shall implement a special curriculum which provides appropriate background in Science and in Technology for students to apply knowledge, skills and attitudes learned in school and in the community businesses and industries.
4. Among the many features of the school are the following: secondary education which caters to the scientific, technological and socio-economic demands of the community; link-up with the local industries/businesses to provide additional technical knowledge and actual work experiences for students; application of learnings in Science and Technology and Home Economics in actual work situations; an enriched Science and Technology and Home Economics curricula which are geared to the existing and emerging community businesses/industries; and the application of the

learnings in Science, Technology and On-Site Work Experience in a project proposal which is expected to be implemented during the fourth year.

5. The technology specialization of the school shall be dependent on the predominating/emerging industry/ies in the province.

6. While the previously established Regional Science High Schools, Learning Resource Centers and the S & T-Oriented High Schools of the ESEP cater to the intellectually gifted students and aim to prepare them for careers in the sciences, the Science and Technology High School shall focus on the average group who may or may not proceed to college. These schools shall be primarily for terminal secondary education.

7. The establishment of the schools shall either be through *conversion* or *establishment of a new school*. The process of establishment shall be called *conversion* if a small-size high school is totally but gradually transformed into a Science and Technology High School and the *establishment of a new school* is done through an evolution of a new school from an established high school.

8. The program shall be piloted in SY 1998-1999 in the sixteen regions in the following tryout schools:

<u>Region</u>	<u>Name of School/ Address</u>	<u>Implementation Strategy</u>
I	Speaker E. Perez National Agricultural School San Carlos City	Establishment
