ANDROMEDA ASTRONOMY EVENT OF THE ANDROMEDA MOBILE PLANETARIUM

The Andromeda Mobile Planetarium will conduct the Andromeda Astronomy Event this School Year 2019–2020 in public and private schools nationwide. This is an effective teaching-learning process in providing the necessary information to learners and the citizenry as a whole.

The activity aims to:

1. promote astronomy awareness among the students and the public in general;
2. empower them to grasp abstract astronomical ideas and events and make them realize the impact of astronomy and other science in people's daily lives, and understand how scientific knowledge contribute to a more equitable and peaceful society;
3. implement fun, interactive and educational activity that would serve as a helpful discussion starter and teaching tool;
4. aid teachers in stimulating and sustaining the interest of the learners using visual presentation and simulations; and
5. upgrade them on the trends related to Astronomy.

The target participants are learners and teachers from private and public elementary and high schools.

Participation of public and private schools shall be subject to the no-disruption-of-classes policy stipulated in DepEd Order No. 9, s. 2005 entitled Instituting Measures to Increase Engaged Time-on-Task and Ensuring Compliance Therewith. This is also subject to the no-collection policy as stated in Section 3 of Republic Act No. 5546, An Act Prohibiting the Sale of Tickets and/or the Collection of Contributions for Whatever Project or Purpose from Students and Teachers of Public and Private Schools, Colleges, and Universities (Ganzon Law).
