

We are pleased to offer our most heartfelt congratulations to the Government of the Republic of the Philippines, especially to the Department of Education on the passage of R.A 11510 also known as the Alternative Learning System Act. UNESCO firmly believes that if we want to “leave no one behind”, we must start with providing equitable and accessible education for everyone. This means creating more spaces and systems that would allow those not enrolled in the formal education system to still learn and participate. The passage of the Alternative Learning Act guarantees various learning opportunities for millions of out of school Filipinos, both children and adult, who want to complete their basic education.

Rest assured that UNESCO will continue to be a solid and steadfast partner of the Government of the Philippines in the implementation of this Act and in the realization of Sustainable Development Goal 4.
