**B. Section VII. Technical Specifications**

	<b>Original Provision</b>	<b>Provision As Amended</b>
<b>I. Detailed Technical Specifications, page 37</b>	<b>Pneumococcal Vaccine</b> <b>Generic Name:</b> Pneumococcal 13 valent Conjugated Vaccine <b>Dosage:</b> 0.5ml pre-filled syringe <b>Packaging:</b> (Single dose) pre-filled glass vial Type 1  With Certificate of Product Registration from Philippine FDA.	<b>Pneumococcal Vaccine</b> <b>Generic Name:</b> Pneumococcal 13 valent Conjugated Vaccine <b>Dosage:</b> <u><b>0.5ml (1dose) IM</b></u> <b>Packaging:</b> <u><b>1 Single dose (0.5 ml) pre-filled syringe with separate needle</b></u>  With Certificate of Product Registration from Philippine FDA.

	Vaccines shall have at least minimum shelf life of six (6) mos. from the date of delivery.	Vaccines shall have at least minimum shelf life of six (6) mos. from the date of delivery.
<b>II. General Requirements, pages 37 &amp; 38</b>	<p><b>Dosage Presentation</b></p> <p>Vaccines should be packaged in a pre-filled sterile syringe with attached sterile needle or individual single-dose glass vials with two (2) sterile needles and one (1) sterile syringe.</p>	<p><b>Dosage Presentation</b></p> <p><b><u>Vaccines should be packaged in a pre-filled sterile syringe with separate needle.</u></b></p>
	<p><b>Delivery</b></p> <ul style="list-style-type: none"> <li>• The Supplier shall be responsible for proper handling and maintaining the appropriate cold chain requirement of the vaccines during delivery.</li> <li>• The Supplier shall supply and deliver the vaccines by 5 batches including proper storage container.</li> <li>• The Supplier shall also provide <b>at least one (1) storage container, including ice gel packs</b>, that can sustain cold temperature required for the vaccines.</li> </ul>	<p><b>Delivery</b></p> <ul style="list-style-type: none"> <li>• The Supplier shall be responsible for proper handling and maintaining the appropriate cold chain requirement of the vaccines during delivery.</li> <li>• <b><i>The Supplier shall supply and deliver the vaccines by 5 batches including proper vaccine storage cooler container (which should be equipped with a mechanism that can monitor, regulate and maintain the temperature required to preserve and ensure the efficacy of the vaccines).</i></b></li> <li>• <b><i>There shall be three (3) stations with each station being manned by a DepEd nurse. The supplier shall provide at least three (3) proper vaccine storage cooler container (or one (1) container per station). Each vaccine storage container should be equipped with a mechanism that can monitor, regulate and maintain the temperature required to preserve and ensure the efficacy of the vaccines. The supplier shall ensure that the size of each vaccine cooler container shall be big enough to hold the appropriate number of vaccines considering the number of employees who will be inoculated in each station at a particular time.</i></b></li> </ul>

		<ul style="list-style-type: none"> <li>• <i>The supplier shall also provide sufficient number of ice gel packs that may be used as the vaccines are removed from the proper vaccine storage cooler container by the personnel in the process of administering and inoculating the employee with the vaccine.</i></li> </ul>
--	--	---

- C. As herewith enclosed, the clarifications of the BAC in response to the queries of the prospective bidders, who attended the Pre-bid conference on October 22, 2021, form part of this Supplemental Bid Bulletin.

All other provisions of the Bidding Documents not herein modified shall remain in full force and effect.

For your information and guidance.

**FOR THE BIDS AND AWARDS COMMITTEE III:**

  
**TONISITO M.C. UMALI, ESQ.**  
 Undersecretary and BAC III Chairperson

**CLARIFICATIONS TO THE QUERIES OF THE PROSPECTIVE BIDDERS**

<b>Item No.</b>	<b>Clarification</b>	<b>BAC's Response</b>
1	Clarification on the correct packaging of the vaccine, to wit: <ul style="list-style-type: none"><li>• Packaging: (Single dose) pre-filled glass vial Type 1</li></ul>	<b><u>Packaging:</u></b> <b><u>1 Single dose (0.5 ml) pre-filled syringe with separate needle</u></b>  Please refer to the amended technical specifications mentioned-above.
2	In the Technical Specifications particularly the dosage presentation. Clarification on the inconsistency between individual single-dose glass vials with 2 sterile needles and 1 sterile syringe.	<b><u>Dosage:</u></b> <b><u>0.5ml (1dose) IM</u></b>  Please refer to the amended technical specifications mentioned above.
