KAPNAYAN 2022 OF THE UNIVERSITY OF THE PHILIPPINES LOS BAÑOS
CHEMICAL SOCIETY

The University of the Philippines Los Baños (UPLB) Chemical Society will hold its online KAPNAYAN 2022 from February 7 to 12, 2022.

KAPNAYAN is a triennial, week-long nationwide Chemistry Fair consisting of activities geared for the participation of students from secondary high schools. This year's event titled, "The Prescribed Dose: Immunizing Minds Through Chemical Literacy Against the Infodemic," will be the Sixteenth Chemistry Fair hosted by the UPLB-Chemical Society.

This event aims to expose high school students to the role of Chemistry in media, as well as to guide them in achieving the skills of a chemically literate 21st-century learner. It will feature different activities, which include webinars, online exhibits, science writing contests, infographic making contests, virtual escape room, and the main events—idea pitching competition and ideathon.
