SOUTHEAST ASIAN EDUCATIONAL INNOVATION AWARDS

The Southeast Asian Ministers of Education Organization-Regional Center for Educational Innovation and Technology (SEAMEO INNOTECH) is calling for nominations for the Southeast Asian Educational Innovation Awards (SEA EIA).

With the theme, Innovative Human-Centered Learning for Future-Ready Schools, the award seeks to recognize achievements of teachers, community education workers, and other education workers that made a difference in the lives of the learners and communities through the creative application of an idea into practical reality.

These may involve the novel and creative use of tools, concepts, processes, or their combinations to produce new and better results. The innovative practices, developed and applied by teachers and community education workers through various projects, activities and initiatives that brought on positive impact on learners and the communities are highlighted and shared among other education workers.

Topic areas may include

1. Personalized Learning: Tailoring educational experiences to meet the unique needs, interests, and learning styles of individual students, often facilitated by adaptive learning technologies and data analytics.
2. Collaborative Learning Environments: Creating interactive, creative, and cooperative learning spaces where students work together, share ideas, and engage in collective problem-solving, fostering teamwork and communication skills.
3. Inclusive Education Practices: Implementing strategies and interventions to ensure equitable access to education for all learners, including those with diverse abilities, backgrounds, and learning preferences.
4. Innovative Pedagogical Approaches: Instructional strategies, and educational philosophies that prioritize student engagement, active learning, critical thinking, and creativity. This includes innovative approaches such as project-based learning, inquiry-based learning, and flipped classrooms.

The nominations (paper submissions or electronic files sent by email) should reach SEAMEO INNOTECH no later than 5:00 p.m. on June 30, 2024.

For more inquiries and concerns, contact SEAMEO INNOTECH Data Protection Officer, through email: info@seameo-innotech.org.
