19.5

The computation of a prospective bidder's NFCC must be at least equal to the ABC to be bid, calculated as follows:

*NFCC – [(Current assets minus current liabilities) (15)] minus the value of all outstanding or uncompleted portions of the projects under ongoing contracts, including awarded contracts yet to be started, coinciding with the lot or aggregate of lots bid for.*

The values of the domestic bidder's current assets and current liabilities shall be based on the latest Audited Financial Statements submitted to the BIR.

For purposes of computing the foreign bidders' NFCC, the value of the current assets and current liabilities shall be based on their Audited Financial Statements prepared in accordance with international financial reporting standards. (23.5.1.4a)

If the prospective bidder submits a committed Line of Credit, it must be at least equal to ten (10%) of the ABC of the lot/s bid for: Provided, that if the same is issued by a foreign Universal or Commercial Bank, it shall be confirmed or authenticated by a local Universal or Commercial Bank.

**In case the bidder bids for two or more lots, the bidder shall indicate the lots bid for in the order of priority or preference, following the form prescribed in this bidding documents.**

**The computation of NFCC shall take into account the lots bid for. The number of lots bid for shall also consider the committed line of credit. The bid shall be allowed only to the extent (i.e. number of lots) as the NFCC or the committed line of credit shall cover.**

**In any case, the NFCC computation or committed line of credit, as well as the SLCC, must be sufficient for all the lots or contracts bid for. The NFCC computation shall be in accordance with the prescribed form.**

**In case of a bid involving two or more lots, the bidder shall indicate in the NFCC form the lots bid for, in their order of priorities or preferences. The first lot in the order shall follow the following formula:**

***NFCC = [(current assets minus current liabilities) x (15)] - value of all outstanding or uncompleted portions of the projects under ongoing contracts, including awarded contracts yet to be started***

**For subsequent lots, the formula shall be as follows:**

***NFCC = [(current assets — current liabilities) x (15)] - [value of all outstanding or uncompleted portions of the projects under ongoing contracts, including awarded contracts yet to be started + value of the prior lot/s bid for]***

In case of a joint venture, the NFCC shall be computed based on the Audited Financial Statement of the **LOCAL LEAD PARTNER**, unless it is shown by clear proof that the other partners to the joint venture have infused capital investment to support the operation of the local lead partner to ensure compliance with the obligations under the contracts in this project, in which case the NFCC of the foreign joint venture or the minority partner of the joint venture shall be computed.

	<p>For this purpose, the local lead partner shall be that person/organization/company identified in the Joint Venture Agreement or in the Letters of Intents (for potential JV partners) shown to have the controlling stakes in the JV, and who must be registered as a Filipino (Domestic) company or business entity.</p> <p>For easier reference, participating JVs or prospective JV partners must indicate in their JVs or Letters of Intent the local lead partner appointed by them.</p>
